# Brief report of (wetrue.io and aechina.io)

Thanks very much for the donation of Æternity Crypto Foundation. The following is my brief report on the two projects

WeTrue

AeChina

Links and features

Project : https://wetrue.io

Introduce: A social platform that uses blockchain features to keep a diary and make friends.

Project : https://aechina.io

Introduce: An Aeternity blockchain Chinese news media that publishes Chinese AE news, tutorials, etc.

Time spent

I can't remember how much time I spent on the project.

Launched in 2019, AeChina.io has spent much of its time writing and translating articles.

WeTrue.io spent more than 1,000 hours for development and improvement. A team of 5 people promotes it for no less than 1500 hours.

Contributions and achievements

AeChina has more than 1,500 users visiting it every day, publishing a total of 452 articles closely related to AE, and the cumulative number of visits has exceeded 300,000 times.

WeTrue visits 2000+ users every day, currently there are more than 1100 users, and 578 users have used it to record. Published more than 7,300 topics, more than 2,800 comments, and received 442,658 Praises.

Trapped which points and Suggestions

There is a lack of stable nodes in Asia, and node.aechina.io has been providing services, which is currently known as a public node.

The development document is messy, we should sort out the best and publish it in a unified place.
