

Warning message: Displayed when the user clicks on video/audio content to play in the feed or in any other case that requires third-party cookies. Message can be closed but it will appear again when cookies are required until the user selects an action: either allows all cookies or goes to User Profile settings to customize cookies policy by content providers.

A dark-themed dialog box with a close button (X) in the top right corner. At the top center is a blue icon of a cookie. The text inside reads: "Superhero.com respects your privacy. Third-party tracking cookies are blocked by default. In order to play content such as video or audio you have to allow all third-party cookies or customize your cookies policy by content provider." Below the text are two buttons: "Allow all cookies" and "Customize policy". A mouse cursor is hovering over the "Customize policy" button.

Cookies policy settings: Allow or block third-party cookies by content provider. Option chips enabled/disabled state and mouse hover effects are shown below.

The "Cookies policy" settings interface. It features a header with a cookie icon and the text "Cookies policy". Below the header, the text "Allow third-party tracking cookies" is displayed. A grid of 15 rounded rectangular chips is shown, each representing a content provider. The chips are arranged in three rows of five. The first row contains "Allow all", "Facebook", "YouTube", "Google", and "Reddit". The second row contains "Giphy", "Vimeo", "TikTok", "SoundCloud", and "Instagram". The third row contains "Twitter", "LinkedIn", "Pinterest", "Medium", and "Patreon". The "Facebook", "Vimeo", "SoundCloud", and "Twitter" chips are highlighted in blue, indicating they are selected. Mouse cursors are hovering over the "Facebook" and "Google" chips.
